

Trintech + Mero

A Smarter, Faster Financial Close for New Zealand Enterprises

In today’s high-speed business environment, finance teams across New Zealand are under growing pressure to close the books faster, ensure compliance, and deliver insights that drive strategic decisions. But legacy tools like spreadsheets and siloed systems often slow progress and increase risk.

Enter Trintech and Mero

Trintech’s AI-powered financial close solutions automate and optimise every stage of the close—from transaction matching and reconciliation to journal entries, task management, and analytics—bringing accuracy, efficiency, and real-time visibility to finance operations.

As an authorised reseller and implementation partner, Mero now brings these powerful capabilities to New Zealand organisations. With deep expertise in data and digital transformation, Mero ensures seamless deployment, training, and local support—backed by global best practices.

Together, we’re helping New Zealand enterprises eliminate friction from the close process—and transform finance into a strategic powerhouse.

Why This Partnership Delivers

This partnership pairs Trintech’s industry-leading technology with Mero’s trusted local presence to provide a modern, cloud-first solution for mid-to-large New Zealand enterprises.

What you can expect:

Up to a **75%** faster balance sheet reconciliations

Up to a **72%** time saved on bank reconciliations

Up to a **60%** reduction in overall close time

Mero’s finance-focused consultants are trained to implement Trintech’s solutions quickly and effectively, ensuring rapid time to value with minimal disruption to your team.

Trintech + Mero: A Unified Value Proposition

- A proven, scalable SaaS platform built for finance transformation
- Full ERP integration to streamline close processes without overhauling your existing systems
- Local implementation, enablement, and support through Mero
- Global best practices for audit-readiness and compliance
- Real-time dashboards and structured workflows to replace error-prone spreadsheets
- Built-in controls and audit trails to strengthen accuracy and accountability to disclosure management and AI solutions.

Whether you're centralising finance operations, improving reporting, or scaling for growth—Trintech and Mero give you the tools and support to make it happen.

Seamless Integration, Scalable SaaS Deployment

Trintech integrates with major ERP systems and general ledgers, enabling automated matching, reconciliation, and close checklists—without the need for a full system overhaul.

Mero's delivery team ensures that implementation aligns with your existing stack, making go-live smooth and stress-free. As a cloud-native solution, Trintech's platform is fast to deploy and easy to scale across your finance team.

Built for New Zealand Finance Teams

Trintech's solutions are purpose-built for mid-market and enterprise finance teams ready to modernise their month-end processes. With Mero's local expertise and Trintech's robust platform, we're empowering industries like:

- Retail & Consumer Goods
- Government & Public Sector
- Healthcare
- Professional Services
- Education & Not-for-Profit

Organisations moving away from spreadsheets or retiring legacy reconciliation tools will benefit from faster implementation, stronger controls, and a platform that grows with them.

Key Benefits at a Glance

- **Accelerate your close:** Automate workflows and reduce manual work
- **Increase visibility:** Gain real-time insight with dashboards and task tracking
- **Ensure compliance:** Built-in documentation, controls, and audit trails
- **Improve accuracy:** Multi-way matching and risk-tiered reconciliations
- **Scale with ease:** Structured, scalable workflows that grow with your business
- **Local delivery:** Trained and certified support from Mero, a trusted NZ partner
